Year 6 Learning Menu – WC 13th July

This learning menu covers aspects of the curriculum we would usually be covering at this point in the year. This menu is to be used in school as well as at home. It is therefore essential that you complete the activities for any given day, whether in school or at home. All resources can be accessed from the school website.

	English	Maths	Topic
Monday	Watch a film of your choice. Do not chose one that already has sequel.	White Rose Maths Week 12 Lesson 1	Write your own end of year report. Be honest with yourself, addressing achievements and things you could and should improve if you were to start Year 6 again. Remember to think about all of the different subjects and topics you have studied this year.
Tuesday	Write a film review about what you watched yesterday. This should include: *Star rating * Overview of the plot * Mention what age group you think it would appeal to and why * Describe main characters * What you think could be improved	White Rose Maths Week 12 Lesson 2	Science: Paper plane investigation – see PowerPoint for instructions.
Wednesday	Think about a potential sequel to the film you watched yesterday. Introduce 3 new characters. Plan this out in a story board format.	White Rose Maths Week 12 Lesson 3	Guess who? Research a historical figure and write some facts down about him/her. These could range from appearance, achievements, family, country of origin, age etc. For those in school usually, please bring these into school tomorrow so we can try and guess them.
Thursday	Write a short synopsis for your sequel. Challenge: Can you make your synopsis exactly 100 words.	White Rose Maths Week 11 Lesson 4 (Alternative plan)	Art: Design a cinema poster to advertise your sequal.

Friday	Write a character description, with an accompanying illustration, of your 3 new characters in your sequel.	White Rose Maths Friday Challenge	Using these example riddles: https://frugalfun4boys.com/30-riddles-brain-teasers-for-kids/ Have a go at writing your own. guess them.
